

OFC Membership Meeting September 20, 2016 7:00 PM - Club Hangar NT - 17

- 1) Call to order by Burt S. at 7 PM; Agenda is attached.
- 2) Attendees: Burt Stevens Pres(R), Robert Ham VP(R), Wayne Tremallo MX(R), Matt Baker Safety(A), Ed Chromczak Act Sec(A), Gary Nalband IPP(A), Steve Baranowski(A), Robert Barron(R), Steve Belmont(R), Pat Cooper(R), Andrew Cunningham(R), Gavin "duke" Earl(R), Richard Feeney(R), Geoffrey Green(R), Ed Hill(A), Leo Mollica(R).
- 3) Regular: 11; Associate: 5. Quorum NO (requires 16 Regular members); conducted as Board Meeting as there were 5 of 9 Board Members present.

4) Monthly reports:

- a) Membership; see attached.
- b) <u>Treasurer</u>; see attached. Also comments concerning the costs of the engine overhaul scheduled for N98819 and resolved; i.e. engine \$23K plus shipping, parts, labor equal to approximately \$32K.
- c) MX Report; see attached. Continued discussion concerning 819 engine overhaul and condition of 62Y oil analysis results which were apparently better than previous results. 819 engine OH by Penn-Yan will be done by Image at OXC who has been giving us reasonable service and pricing and importantly, there is no need for a \$15K core deposit. Image will complete job within 14 days or we may qualify for some kind of credit.
- d) <u>LRP</u>; see attached. Additional discussion which brought up information that FAA is still working on CPL rating changes for use of "glass cockpit" airplane rather than requiring a complex airplane (retractable gear). 34X may either be qualified or close to fit the requirement and will be verified as the FAA regulation is published.
- e) <u>Safety</u>; event at Mt Tobe has been published and is still scheduled. Two Archers; one C172.

5) Remaining Unfinished Business:

- a) Greenwood-Hill Committee; see attached Liability issues will be continued to be discussed because of its complexity. Ed Hill & Andy Cunningham will review. The discussions and review of the information presented was rather lengthy and complex; will be forwarded to members later. The issues discussed included: gross negligence, risks, keeping limits within range of Club insurance coverage presently \$2M, adjusting for changes of Club membership, perhaps needing a witness while signing indemnification, thoughts of reviewing what other clubs and/or CAP utilize for releases for both members and non-members while flying in Club planes.
- b) New membership application form which will include liability release. To be continued.
- c) Current membership release form; to be continued.
- d) Associate members access to aircraft; not discussed.
- e) Banktime & self-certification; (Matt Baker) not discussed.
- 6) New Business: None
- 7) Adjourned at approximately 8:30 PM.

Membership Report Oxford Flying Club

Don Heidrich, September 2016

Membership Changes since Last Meeting:

Resigned:

- Mike Haas
- Jordan O'Brien

Status Change:

- Ed Chromczak (Regular to Associate)
- Matt Baker (Regular to Associate)

Joined:

- Gino Pereira
- Steve Belmont
- Jeff Parkin

819:

<u>2016</u>: Overhaul engine [approximately \$32K]: Additional engine monitoring was done recently by bore scoping & compression tests, along with the motor oil analysis. During the February 2016 annual, the engine condition was reviewed and it has been decided to plan for the overhaul during the early fall.

Latest oil analysis, again, shows the engine in good condition. This time period was selected so that the break-in process can be completed during good flying weather temperatures, if possible. Also consider performing Annual inspection (due in February) during engine overhaul. Scheduling a C172 should not be a problem since we now have a 2nd one in our fleet.

Touch-up paint. [\$50 - \$500]; work-in-progress may perform during engine OH.

62Y:

2016: Study engine for excessive wear as indicated from recent oil analysis and filter debris.

2016 - 2017:

(Need to be researched by MX & LRP Committees.)

Determine if/when we should replace 62Y with a PA28-200R Piper Arrow; or following new requirements for a Commercial rating, consider a Glass Cockpit upgrade of a fixed gear, constant speed prop plane.

The following are optional and can be done "anytime" in the future:

<u>Future:</u> **62Y; 34X; 61H:** Install units to support ADS-B IN, based on needs to have additional information displayed (WX & traffic) and interconnections (iPads/iPhones).

61H: Replace front & rear seat coverings with cloth or repair existing leather seat upholstery.
